Skills

JavaScript, React, Redux, HTML, CSS, Ruby, Ruby on Rails, Mongoose, MongoDB, Node.js, Express.js, SQL, SQLite3, PostgreSQL, Webpack, jQuery, Git, Render

Projects

Performance Playbook - Performance Playbook was built using vanilla Javascript   Live Site | GitHub
JavaScript, HTML5, CSS3, Webpack, Figma
- Leveraged D3 API and webpack to seamlessly fetch and visualize player statistics, providing users with an intuitive and interactive experience in tracking their selected players' performance.
- Utilized vanilla JavaScript to develop a performance tracking system that dynamically updates player statistics, including points scored, yards gained, touchdowns, and more, empowering users to make informed decisions for their fantasy football teams and enhance their roster management capabilities.

Canal - A full-stack web app that is an Amazon clone   Live Site | GitHub
Ruby on Rails, React, Redux, JavaScript, HTML5, CSS3, PostgreSQL, Webpack
- Implemented advanced features like pagination, Reactjs Popup, HTML parser, and text editor modals to facilitate Create, Read, Update, and Delete (CRUD) actions for questions, answers, and voting, enhancing the overall user experience (UX) and user interface (UI).
- Developed a powerful search feature that retrieves results from a PostgreSQL database, enabling users to filter products by keywords and find relevant items quickly, improving the efficiency of the browsing and shopping experience.
- Leveraged Redux for efficient state management in React components, resulting in cleaner, more maintainable code. By centralizing and optimizing information management, Redux enhanced the scalability of the single-page application (SPA) and ensured a more seamless and responsive user interface.

LovArt - A MERN stack app where users can create accounts, upload and share their artwork   Live Site | GitHub
Mongoose, Express, Redux, React, AWS S3, MongoDB, Node.js

- Developed robust and scalable server-side applications using Express.js, leveraging its powerful routing and middleware capabilities to handle HTTP requests and build RESTful APIs.
- Created dynamic and interactive user interfaces using React.js, implementing reusable components, state management, and virtual DOM manipulation to deliver efficient and responsive web applications.
- Created resilient and scalable server-side applications using Express.js, harnessing its robust routing and middleware functionalities to manage HTTP requests, construct RESTful APIs, and effortlessly incorporate MongoDB for streamlined data storage and retrieval.
- Worked together with team members utilizing Git workflow and Slack to efficiently implement features, while seamlessly transitioning between frontend and backend tasks.

Professional Experience

App Academy, New York, NY
Cohort March 2023 - June 2023
- Developed a website called Performance Playbook that tracks Football players' data and displays their statistics in an intuitive pop-up window.

- Developed an Amazon clone called [Canal](#) that focuses on replicating key features of the Amazon platform, such as browsing and searching for products, adding items to the cart, and completing the checkout process
- Developing a website called [LovArt](#) with a team of 4, that is a social media platform for artists to share, gather and critique on their works of art.
- Proficient in full-stack web development, utilizing front-end technologies (HTML, CSS, JavaScript, Express, React) and back-end technologies (Ruby on Rails, PostgreSQL, MongoDb).
- Integrated third-party APIs (AWS, FantasyFootballPros) and utilized front-end frameworks to enhance user experiences with dynamic content rendering.
- Adhered to software development best practices, version control systems (e.g., Git), and deployment methodologies.
- Demonstrated ability to design, develop, and deploy responsive and user-friendly web applications from scratch, showcasing expertise in modern development frameworks and libraries.
- Collaborated effectively within agile team environments, delivering high-quality projects within tight deadlines;

P.C. Richard & Son, Yonkers, NY

Retail Sales Associate   Oct 2020 – January 1st 2023
- Proactively engaged with regular and potential customers, effectively demonstrating products and highlighting key features to drive sales and generate orders.
- Utilized exceptional product knowledge and customer-focused approach to provide tailored recommendations based on individual customer needs and interests, resulting in increased customer satisfaction and sales.
- Responded to customer inquiries regarding product details, pricing, availability, usage, and credit terms, delivering accurate and comprehensive information to facilitate informed purchasing decisions. Additionally, proficiently handled price estimation, quoting, and provided detailed information on warranties and delivery timelines.
- Collaborated with a sales team at one of their flagship stores, which generated over $36 million in annual sales. Additionally, achieved remarkable sales performance, contributing to an impressive yearly revenue of $1.2-1.7 million.

Days Inn, East Stroudsburg, PA

Front desk and night auditor   Aug 2019-Mar 2020
- Conducted nightly audit of guest ledgers, diligently reconciling bank and cash registers, promptly resolving any discrepancies to ensure accurate financial records and smooth operations.
- Demonstrated exceptional responsiveness to guest needs, efficiently addressing requests and changes in reservations, effectively communicating important information to the day crew for seamless transitions and enhanced guest experiences.
- Maintained a high level of accuracy while reviewing daily financial statements, meticulously completing end-of-day paperwork, and ensuring 100% precision in recording hotel revenue and occupancy data, contributing to effective financial management and reporting.

Wyndham Destinations, East Stroudsburg, PA

Vacation Consultant   June 2018-July 2019
- Conducted persuasive and informative presentations of the Wyndham Vacation Ownership product to pre-qualified potential new owners and guests, effectively showcasing the benefits and features to drive interest and engagement.
- Demonstrated exceptional sales skills by proactively initiating transactions and utilizing effective closing techniques, resulting in consistently high sales numbers and exceeding performance targets.
- Ensured ultimate customer satisfaction by providing thorough follow-up with each new owner, addressing any concerns, answering inquiries, and fostering positive relationships to enhance customer loyalty and generate referrals.

Sears, East Stroudsburg, PA

Sales Associate   March 2017-May 2018
- Monitor customer preferences to determine focus of sales efforts
- Compute sales prices, total purchases, receive and process cash and credit payment

Romeos Pizzeria, Irvington, NY

Delivery Driver and Assistant Manager   2011- Jan 2017
- Preformed checkouts of servers and drivers to make sure that all tickets were accounted for
- Manage daily operation and employees
- Balance and reconcile cash drawer and credit card transactions
- Opening store two days a week and closing store 3 days a week
- Making schedule for employees
- Presented clean, neat, and professional appearance both in person and with vehicle
- Took money and tips and returned promptly to restaurant for additional deliveries
